"Best Investment For An Outstanding Wood Shake Look"

The unique "Shadow Accent" effect results in maximum dimensionality depth

See your local contractor/retailer for
Timberline® Ultra® color availability in your area.

for HOMEOWNERS

- **Best Investment...** The premier shingle in the Timberline® Series, Timberline® Ultra® Shingles are 25% heavier and thicker!*
- **Dramatic Appearance...** Designed for the most discerning property owners, Timberline Ultra shingles are acclaimed for their striking and richly textured look.
- **Safer...** Class A fire and wind ratings from UL—the highest ratings possible.
- **High Performance...** Super heavyweight design now includes our strongest Micro Weave® Core — making it the longest lasting shingle in the Timberline® Series.
- **Stays In Place...** Dura Grip® adhesive seals each shingle tightly and reduces the risk of shingle blow-off. Shingles confidently warranted to withstand winds up to 110 mph (requires special installation)!†

- **Peace Of Mind...** Lifetime ltd. transferable warranty with Smart Choice® Protection for the first ten years (non-prorated material and installation labor coverage)!**
- **Perfect Finishing Touch...** Use distinctive TIMBERTEX® Ridge Cap Shingles (in the West, use PacificRIDGE™ or Universal Ridge Cap Shingles; in the Southeast, use Universal Ridge Cap Shingles).

for PROFESSIONALS

- **More Referrals...** People will know that you're installing America's #1-selling laminated shingles!
- **Less Chance Of Call...** Durable, wind-resistant shingles carry a 110 mph ltd. wind warranty!†

*Versus Timberline® 30 shingles

** See ltd. warranty for complete coverage and restrictions

†Installation Note: 110 mph ltd. wind warranty applies only when: (a) product is installed using six nails per shingle and (b) product is installed in conjunction with Timbertex® Ridge Cap Shingles (Note: On the West Coast, any GAF Ridge Cap shingle may be used); otherwise, wind warranty is 90 mph
